Dear Director Aggangan,

Continued Certification to ISO 9001:2008

The continued certification of your quality management system (QMS) to ISO 9001:2008 is hereby approved by Certification International Philippines, Inc. This reconfirmation was based on the results of the second surveillance audit of your QMS on 27 February 2017 and the improvement actions on the two non-conformities that were raised at that audit. The effective implementation of the improvement actions on reports LGR-01-SV2 and MPC/LGR-01-SV2 will be verified on the third surveillance/reassessment audit in February 2018, subject to the renewal of the 3-year certification contract between DOST – FPRDI and CIP. If, on the other hand, there is no new contract with CIP, your ISO 9001:2008 Certificate will expire on 11 May 2018.

The audit found your QMS maintained in accordance with the requirements of ISO 9001:2008. It reported the strengths of your QMS and the activities that have been initiated by your different departments to meet their quality objectives, ensure external and internal customer satisfaction.

Finally, we encourage your management team to consider the opportunities for continual improvement that were discussed during the audit. We anticipate that your appropriate actions on these would escalate the effectiveness of your QMS as a tool for continual improvements and as a guide for meeting organizational performance objectives. Subsequent audits will track the progress and results of these improvement actions.

Very truly yours,

Dear Director Aggangan,

Continued Certification to ISO 9001:2008

The continued certification of your quality management system (QMS) to ISO 9001:2008 is hereby approved by Certification International Philippines, Inc. This reconfirmation was based on the results of the first surveillance audit of your QMS on 19 April 2016 and the improvement action on the single non-conformity that was raised at that audit. The effective implementation of the improvement action on report EPA-01 will be verified on the second surveillance audit.

The audit found your QMS maintained in accordance with the requirements of ISO 9001:2008. It reported the strengths of your QMS and the activities that have been initiated by your different departments to meet their quality objectives, ensure external and internal customer satisfaction.

Finally, we encourage your management team to consider the opportunities for continual improvement that were discussed during the audit. We anticipate that your appropriate actions on these would escalate the effectiveness of your QMS as a tool for continual improvements and as a guide for meeting organizational performance objectives. Subsequent audits will track the progress and results of these improvement actions.
